

## Jacqueline Fernandez

# AN EYE FOR STYLE

We catch up with the energetic Jacqueline Fernandez as she tells us about her next film *Drive*, animal safaris in Sri Lanka, and the need for comfortable eyewear.

**F**resh from the commercial success of her film *Race 3* (co-starring Salman Khan and Anil Kapoor), Sri Lankan native Jacqueline Fernandez is currently filming action flick *Drive* with Sushant Singh Rajput. With her 20.2 million followers on Instagram, she's known for her "easy, comfortable, and fun" personal style. "I like a nice dress or shorts/skirts paired with a tee," she says. "For any event that I attend, I like to go with the memo, so I know what to wear, paired with a nice clutch and a sexy pair of stilettos!" When it comes to eyewear, she says: "My favourite is international brand Nova Eyewear, which offers a complete range that is innovative and stylish. I am particular about quality, comfort, clarity, and style when comes to eyewear. It should not only look good on me it but it should fit well. I opt for lenses which provide optimum UV protection from harm-

Jacqueline Fernandez loves to wear eyewear that's comfy and stylish, such as this pair from Nova Eyewear, for which she has recently become global brand ambassador.

ful sun rays along with polarization to block out glare. As for spectacle lenses, I prefer mine light in weight and give adequate protection from digital strain, ensuring clear and comfortable vision."

The jet-setting actor, who considers Audrey Hepburn and Rekha as her style icons, loves to shop while travelling for shoots or for holidays, Paris being her favourite city. She loves to indulge in Sri Lankan cuisine (she owns a restaurant in Colombo, and will soon open a Thai eatery in Bandra), and misses camping and wildlife safari tours in Sri Lanka. "It's so calming to get away from the maddening crowd once in a while and just immerse oneself in nature," says this animal lover. "Just treat animals with love and care, it's that simple." And can we expect any stunt scenes from her in *Drive*? "The shoot was fun, with lots of cool driving!" she says. We're waiting. ■
